Dear Valued Client

We would like to send you a friendly reminder that the NEC SL1000 Phone system have reached the end of life some time ago and we will no longer be able to order parts for these systems. Please be aware that our current stock and parts are very limited.

We therefore urge you to consider upgrading your switchboard phone system. The voice communication technology has advanced tremendously in the past few years and is now in the forefront of the 4<sup>th</sup> Industrial Revolution, where we are no longer dependent on monopolies like Telkom and others.

Voip and Sip line Technology has advanced tremendously and Switchboard phone systems are now very reasonable and affordable. Voice Call and Data rates are also now much cheaper than before.

For any further information please call us for a Proposal and Quote to upgrade your current system. Please visit our website to see our range of products on offer <http://www.unicomvoice.co.za>

Call us on 011 100 4833 or send a mail to [helpdesk@unicomvoice.co.za](mailto:helpdesk@unicomvoice.co.za)

PS:

We also offer a reasonable trade in value on your old system when you upgrade and sign up to a new Voip Sip Line Contract.

Regards

Unicom Management
